FREESTANDING BOAT LIFT

FREESTANDING BOAT LIFT: Experience the Perfect Blend of Reliability & Versatility

Discover the best of both worlds: the dependable stability of a Post lift combined with the unmatched versatility of a bottom-based lift. Golden's innovative Freestanding Lift features a robust framework for exceptional stability and four individually adjustable legs for precise leveling. This lift is perfect for areas where permanent boat lifts or pilings are impractical, and it can easily be removed during winter months. It is another incredible option for shallower waters, as well. Say goodbye to expensive power requirements! Our lift is available with optional stainless steel waterproof 24-volt DC motors and solar chargers, ensuring you're always ready for a boating adventure, even during power outages. Plus, enjoy the convenience of bypassing the permitting process as the Freestanding Lift is classified as temporary in most cases. Check with your municipality for more detail. Enhance your waterfront experience with this ultimate lifting solution.

FEATURES

- Adjustable Leg Height
- Hardened Bushing with Grease Bolts
- Cable Lock Block
- Multiple Bunk Options
- Anti-Shear Cable Return Plate
- 3.5" Cable Winder
- Field Adjustable Footprint

Anti-Cable Shear Plate Patent: #10,189,685

Cable Retention Bolt Patent: #6,719,241

Sea-Drive® Patent: #7,850,147

- Manufactured from 6061-T6 Marine Grade Aluminum to ensure longevity in both Salt & Fresh water conditions.
- Every Golden Freestanding Boat Lift comes with the cables pre-wound and cradle beams fully assembled for ease of installation.
- All mounting hardware and cable assemblies come standard 300 Series Stainless Steel to reduce corrosion between dissimilar metals.
- The SEA-DRIVE® carries a 10-year warranty and boasts an amazing 8,000-inch pounds of torque, allowing us to use a 3.5" diameter winder vs. a 2.375".
- The 3.5" diameter winders hold 11 inches of cable per wrap vs. 7 inches and extend cable life by increasing the bend radius under load.
- Stainless Steel motors are standard on all SEA-DRIVE® Freestanding lifts.
- 15-year structural warranty, 2 years on all other parts.
- All lifts are CE approved.
- Cable Lock Blocks for easy adjustment.
- Anti-Shear Cable Return Plates prevent pinching in case of over spooling and allow cables to safely overlap.
- Limit Switch Cable Retention Tubes keep power cables away from moving parts.
- Precision Machined Aluminum Sheaves are press fitted with hardened bushings and retained with a greaseable axle bolt to ensure smooth operation.
