ELEVATOR BOAT LIFT

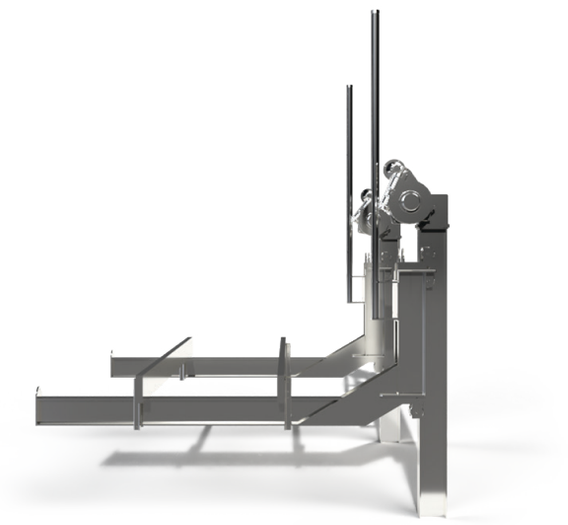

ELEVATOR LIFT: Putting Boats Wherever They Can Fit

Golden's Elevator lifts can be installed on seawalls or pilings in locations with limited space and clearance. The elevator capacities range from 3,000 lbs to 60,000 lbs and larger capacities available upon request. Our elevator lifts come standard with Golden Sea-Drive® and stainless-steel motors and offer innovative patented features and design.
The elevator lifts are made from 6061-T6 marine grade aluminum and 300 series stainless steel hardware. Golden Boat Lifts® are backed by the best warranty in the industry.
