RESIDENTIAL DOCKS

RESIDENTIAL DOCKS: Transform Your Waterfront into a Personal Oasis

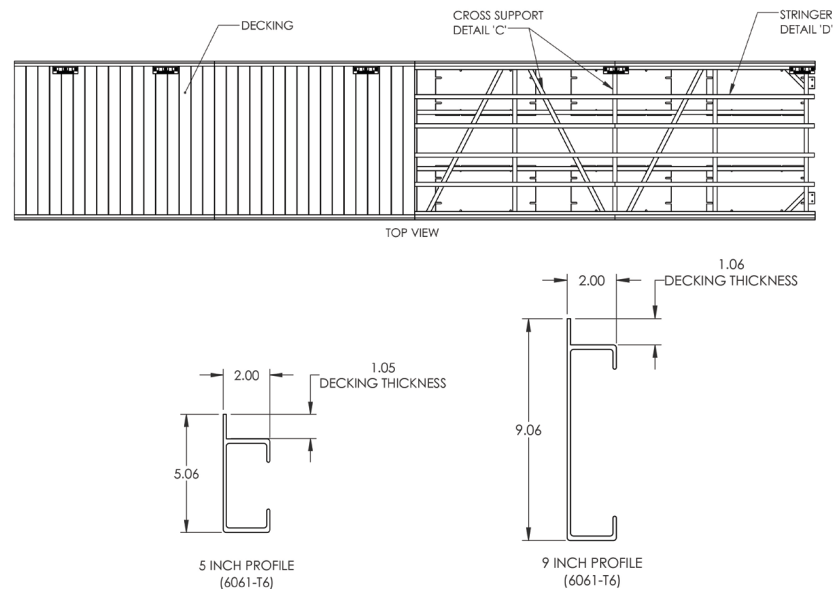

We have over 35 years of experience in the design, engineering, and manufacturing of docks and gangways. Our in-house expertise of industry professionals will assure that your project is correctly designed and manufactured to fit the specific use and conditions criteria necessary to deliver a first in class durable product. Our highly trained and certified Design and Engineering professionals combine an emphasis on creativity, technology and design methodology to develop detailed designs and innovations. We work closely with clients and engineering firms to ensure proper specification practicality and system functionality. Our team of professionals strives to continually set newer and higher standards industrywide.

FEATURES

- Various decking options available
- Commercial grade quality, designed for residential environments
- Dock sections are connected with 80 durometer urethane blocks
