JS-1500R PWC LIFTS

GOLDEN JS-1500R: The Finest Personal Watercraft Lift on the Market

The Golden JS-1500R is the highest quality single Personal Watercraft (PWC) lift on the market with a maximum capacity of 1,500 lbs. It is constructed using aluminum and stainless steel components, and features aluminum bunks along with a direct drive gear box (no excessive squeaking or belt replacements). The JS-1500R is adaptable to a seawall or a single piling: all of the components are installed above the waterline which minimizes aging and corrosion caused by salt water. the 180° swivel feature enables users to swing the PWC over the dock or seawall which can save space in a tight slip when docking nearby vessels, or for convenience when cleaning or servicing the PWC.

FEATURES

- 180° Swivel capability
- Structures affixed above waterline reduce aging and corrosion
- Fully electric with the ability to add remote for handheld lift operation
- Aluminum/stainless steel construction
- Mountable on piling or seawall
- Multiple bunking options
- Guide post bumpers

Cable Retention Bolt Patent: #6,719,241
Sea-Drive® Patent: #7,850,147

INCLUDES

- Direct drive gear box
- 12' mast
- Aluminum bunks 4" x 8'
- Swivel locking pin
